

_Turning

Tiger-tec® Gold

High productivity and perfect chip breaking meet maximum flexibility

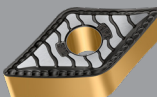

Since the cutting edge is practically always in use during turning, high machining temperatures pose unique challenges for carbide substrates and coatings. Tiger-tec® Gold's answer to these needs is a highly textured TiCN + Al₂O₃ CVD layer, featuring excellent heat resistance that provides outstanding values in terms of tool life.

Promotion Details

Receive 30 inserts for the price of 20!
Each promotion EDP number contains 30 inserts. See next page for product listing.
Only insert styles listed are offered in this promotion - **May 16 thru July 15, 2022.**

Order example: (1) Promotion EDP number (8211167) = 30 inserts
(30) CNMG431-FP5 WPP10G

Product listing

Please use the Promotion EDP number when placing orders. Each Promotion EDP number contains 30 inserts.
Promotion description and ANSI description for reference only.
